

SUSTAINABILITY GUIDE

www.trichemsouth.co.uk

Welcome...

Trichem South is committed to promoting sustainability across all aspects of our business. We recognise the importance of environmental stewardship, social responsibility, and economic viability, and we strive to balance these three pillars to ensure long-term success and have a positive impact on the planet and society. We are dedicated to minimising our environmental footprint through responsible practices.

+ Product Development & Innovation

- Develop and promote eco-friendly cleaning products that minimise harmful chemicals.

+ Resource Management

- Implement energy-efficient practices in manufacturing processes reducing waste and water usage, using electric vehicles and LED lighting.

+ Pollution Prevention

- Reduce emissions and pollutants released into the air, water, and soil.

+ Social Responsibility

- We are committed to having a positive impact on our employees, customers, and communities.

+ Community Engagement

- Foster partnerships with organisations that share our sustainability values and educate the community on the benefits of sustainable cleaning products.

+ Customer Commitment

- Ensure product safety and transparency through clear labelling and information.
- Engage with customers to understand and meet their sustainability expectations.
- Provide information and resources to help customers make informed choices.

+ Ethical Business Practices

- Conduct business with integrity and transparency, respecting human rights in our supply chain whilst committing to responsible sourcing.

+ Continuous Improvement

- We are committed to continually improving our sustainability performance through innovation, collaboration, and transparency.

Trichem South aims to create a positive impact on the environment, society and economy. We are dedicated to leading by example in the cleaning chemical industry and contributing to a sustainable future for all.

Trichem South Branded Cleaning Chemicals

Using our Easy Dose concentrated range will reduce plastic waste. You will save 249 trigger bottles and heads with the use of one 5L product. Trigger spray bottles are made from recycled plastic and the carbon footprint will be reduced as one bottle will last you 250 times longer than a ready-to-use product. One pack of Trichem chlorine tablets will make up to 2000 litres of product, saving 400 plastic drums.

We collect, sanitise and
re-use all laundry bottles.

We use plant-based materials and prioritise the
use of biodegradable and non-toxic ingredients
to provide an effective and
eco-friendly laundry range.

We have planned scheduled delivery
dates to all our customers, enabling
us to minimise our carbon footprint
as low as possible.

Trichem South is proud to stock an extensive range of Robert Scott recycled and eco-friendly cleaning equipment.

- + Recycled and natural fibres
- + UK manufacturer

Microplastic shedding efficiency

Myriad Dispensers from Hylab are a perfect choice to boost your sustainability.

- + 100% recycled material
- + Add a touch of class to your washroom
- + Easy clean for maximum hygiene

Did you know...?

70% of products are made from **100%** recycled material.
Local manufacturing and recycling is a more sustainable approach.

Choosing recycled
toilet rolls helps to save

3300

football pitches worth
of forests every year.

That is

330,000

washing machines of
space saved from landfill.

Producing

49,000

recycled parent reels a year, that's enough
to wrap around the earth nearly 46 times.

Northwood recycles
100,000 TONNES
of paper waste a year

Trichem South is proud to supply a full range of environmentally friendly catering disposables.

Made from materials such as:

- + Palm Leaves
- + Sugarcane
- + Bamboo
- + Paper
- + Cornstarch

Designed to breakdown naturally without leaving harmful residues.

70 percent of consumers are likely to be influenced by packaging that demonstrates a concern for the environment

51 percent of Millennials check packaging for sustainability claims
